I'm studying the first quart of Mechatronics Engineering; I've just done the TSU at the Technological University of Ciudad Juarez. I would like to earn work experience and apply my knowledge in robotics, programming, plc, and automation to help industries improving the efficiency of the processes.

EXPERIENCE

Programmer and Designer, UTCJ (internship)

- I made a vision system in LabVIEW for a robot integration
- I helped to made the design of the structure improvements in SolidWorks
- The system was done by using a webcam, adds PLC communication, and an Excel inventory

Test Technician, Wiwynn

- Linux commands
- How to fix some test failures
- Connect remotely to a server via PuTTY or Microsoft Remote Desktop

EDUCATION

UNIVERSIDAD TECNOLÓGICA DE CIUDAD JUÁREZ, 2021 – 2025

Mechatronics' Engineering

- TSU done in the automation area 2021 - 2023
- Electrical and electronics circuits background, automation of processes

COLEGIO NACIONAL DE EDUCACIÓN PROFESIONAL TÉCNICA, 2018 – 2021

Mechatronics' technical bachelor's

- Electrical and electronics circuits background
- Control and electrical diagrams background
- Automation of processes, PLC, and Arduino

LANGUAGES

- SPANISH (Mother's tongue)
- ENGLISH B1

SKILLS AND ABILITIES

- TECHNICAL
- PROGRAMMING
- COLLABORATIVE
- CREATIVE
- SELF-LEARNER
- LOGICAL

SOFTWARES

- LABVIEW - INTERMEDIATE
- RSLOGIX 500 - INTERMEDIATE
- PYTHON – INTERMEDIATE
- LINUX – BEGINNER
- SQL – INTERMEDIATE
- MICROSOFT OFFICE – INTERMEDIATE
